In light of recent natural disasters, the need for durable and quick to install temporary shel

Keywords:

shipping container housing

Article Body:

Natural disasters leave victims who continue to suffer long after the media turns its focus el

The idea started in part due to the overflow of containers that are piling up in harbors along

We have been importing more than we have been exporting. So the containers come

So the argument has been made that these containers could be turned into shelter for us

However, the first step is to get the containers converted. At the moment, there are a few pro

But there is a solution to this problem. Proponents of the idea, including professors, student

There are still many questions about this idea, mostly about how to get enough interest from t
