Steering Clear Of Carpet Stains

Article Body:

From wine to chocolate to gravy, the possibilities for stains on your carpet are limitless-but

A spill doesn't have to result in a permanent stain if you follow these general tips from the

Cleaning solutions:

Start by using a good cleaning solution that is designed to work on your specific stain. There

Basic cleaning steps:

1. Scoop up and blot as much of the spill as possible.
2. Vacuum any dry particles.
3. Prepare cleaning solutions, beginning with the first one listed.
4. Pretest the cleaning solution on an inconspicuous spot of carpet to ensure it does not discolor.
5. Apply the cleaning solution to the stain area. Work from the outside of the stain toward the center.
6. Allow the cleaning solution to remain on the spill for at least five minutes.
7. Blot with a clean white cloth until no more stain transfers to the cloth. Rubbing the stain will only spread it.
8. Rinse with cold water. Be sure all cleaning solution is removed from the carpet.
9. If you can still see the stain, repeat the process until either the stain is removed or the carpet is damaged.
10. If the stain remains, try the next solution on the list and follow the same protocol above.
11. Once the stain is removed, place layers of white paper towel on the site to absorb moisture.
12. When the carpet is dry, vacuum to restore texture.
13. Have your carpet professionally cleaned every 24 months, as required by the Stainmaster® carpet warranty.
