work at home, work at home moms, home business, internet business

Article Body:

Starting an internet business is in my opinion, one of the fastest and smartest ways women today

1. Money. Pure and simple, we all could use a more of it. Whether it's to get out of debt, build a better life, or just to have more money.
2. Family. Let's face it Moms, a lot of you want to be home with your kids. A work at home job can help you do that.
3. Self Esteem. Many of us are so busy being Moms, and wives, and community members, we forget ourselves.
4. Community. Our communities that we live in are better off for us having started businesses.
5. Tax Benefits. Most women who start a business at home are going to be able to take large tax deductions.
6. Work at Home Household Savings. Working at home means no expensive wardrobes. The average person spends \$1,000 a year on clothes. If you work at home, you can save that money.
7. Flexibility. Because I work at home, I can arrange my schedule to be available when a child needs me.
8. Being in charge of your own business means you are no longer at the mercy of layoffs. Don't let someone else decide your future.
9. You determine how much you work, and how much you make. No more being paid less than you are worth.
10. You can sell your business later on down the line it's an investment! Build it large enough to sell for a profit.

One reason NOT to start an internet business

DO NOT start a business to please anyone else. There is so much pressure on women today to do
