I have a programming background but it was not my technical know-how that allowed me succeed i

I have tried many opportunities and techniques but it was through my failures I've learnt and

I can assure you that, although you will need to acquire some basic technical skills, your suc

Below is my list of what you'll need and have to do, to succeed as an online business owner.

1. Have a dream and persistence. If you haven't got a dream and the persistence to follow it t

2. Have a mentor. Find someone who has gained the experience in this field. Beg, crawl, wash t

3. Find a hobby, a 'pet' project, something you are interested in and would do without payment

4. Promote and automate your project website. Once you completed step 3 above and your site is

5. Once you have enough members and you have an established, loyal group of followers, you can

6. Review the operation of your site, experiment and test the effect of site layout, content,

Wishing you success in your new adventure,

Ference
