change, entrepreneur, internet, e-commerce

Article Body:

We are living in a very unique time period. Innovation happens faster than we can process it,

While it can be exciting to just sit back and soak in all of the amazing things happening, it

What are we to do? For obvious reasons, the worst thing you can do is stop reading those news

That said, we also need to understand that we can't possibly adapt every single change availab

In the course of your reading, if you encounter a technique or technology that will directly h

You have two choices - hate change and watch your business fall behind, or learn to embrace it
