Google Talk? What's this? Is Google getting in on the Internet telephony craze? Yes they are!

Google Talk allows users to IM or make calls over the Internet using a PC, speakers and microphone.

Of course you can only call or IM other people who have downloaded the Google Talk software. But

Those who don't already have a Gmail account can request an invitation via mobile-phone. <https://www.google.com/talk/>

Google has made it fairly convenient to add people to the contacts list of the messenger. Invitations

With that being said, I decided to give Google Talk a spin myself. The UI is easy to use and user

The user controls again are pretty cut and dry, it is a bit plain looking, however; this in mind

All in all, Google Talk is a pretty good messenger. If you have a distaste for banner ads or
