Step one

Please note you can only sell digital items as fixed price, or store item (no auctions allowed
After selecting your category you will then arrive at the "Title & Description" page.

If you don't see the "List as a digital file or information" then you may have used the wrong

Please note, you may have to start a new listing to enable the digital delivery option.

Step two

After clicking the "List as a digital file or information" link, type some information about the item. Make sure you click the legal agreement box and that you are an authorised seller.

Step three

After you have setup the "Title & Description", the "Pictures & Details" you now will have to setup the "Delivery" section. This is the page where you specify how the buyer will receive the item. The buyer will only be able to download the file. Here you can give the buyer details, for example:

"You can download your purchase from here...."

"Please message me (my email address) and let me know which email address you would like me to use."

"If you have any questions or problems, please email me here..."

I recommend you supply people with a download page, or a link to download the file. That way they can download the file directly from your page.
