

Title:

MySpace to go Mobile

Word Count:

211

Summary:

Now you can access myspace through your mobile phone

Keywords:

mobile, phone, myspace, helio

Article Body:

You know what? Helio has just announced a partnership with MySpace to provide ~MySpace on Helio

This is a smart move by MySpace. Other social networking sites have faded away as they became

The key question is, will the MySpace community move to the new mobile device offering? Helio

I would like to hear from all of you out there. Can you see yourself using MySpace on a mobile

But first, you need a good layout for your profile that will look good in your mobile phone. G
