Article Body:

If you own your own website, there are a variety of things you can do to generate extra income

Once you have this information, you can implement any of the following:

1. Include Google AdSense on your web pages. Google delivers text and image ads that are tar
2. Make money selling other people's products and services through affiliate programs. Each pr
3. Sell advertising space on your web site. You could sell banner and/or classified ads. If yo
4. If you have enough web space available on your server, you could rent web pages to other pe
5. Charge people a fee to access a dedicated part of your website. People will pay you money f
6. Sell your own products or services. Of course, they should be related to your target audien
7. Publish an e-zine from your website. Have people subscribe to the e-zine right from your we

Each of these ideas will generate income, but if you are a new website owner, I recommend star

For new internet home business entrepreneurs, in addition to Google Ads, you should also consi
