Article Body:

If you're like most webmasters, you're always looking for ways to get links to your site. Of course,

If you follow a few rules when submitting your site to various directories, you'll greatly increase your

Many directories publish a comprehensive list of rules for submitting to their site, but here are some

1 ~ No promotional language ~ avoid promotion type language in your title and description. Avoid

2 - Don't keyword stuff ~ While you want your keywords in your title and description as possible,

3 ~ Give valid contact info ~ When you submit your listing, use your real name and email address.

4 ~ Submit to the deepest relevant category ~ Don't submit to a main category unless there is no

5 ~ Site guidelines ~ in general, directories will only accept unique, content rich sites. Most

6 ~ Submit your homepage ~ Don't submit sub-pages unless the directory states you may ~ most

Bonus tip ~ Here's a way to greatly speed up your directory submissions. Use a form fill plug-in.
