The website that you conduct your business on is a direct reflection of your personality and your...

Content is the most important consideration. Content should have value and links should be relevant.

Do what you may to succeed but never commit the following sins if you want to succeed in your...

- Vague and irrelevant content
- Slow loading times
- Errors in Spelling and Grammar
- Unprofessional appearance
- Missing contact information
- Confusing navigation
- Too many animated graphics
- Long pages to scroll
- Distracting and bright backgrounds
- Too many banners and frames
- Extra large fonts
- Unevenly balanced pages
- Psychedelic and multi-colored text
- Missing Meta tags
- Too many fonts
- Signs showing ^Under construction~
- Too many ^mouse over effects~

Designing a professional website is a time consuming process ~ take your time but do it right.
