word sites, keyword sites, keyword pages, word link advertising

Article Body:

Can you remember when the MillionDollarHomePage.com launched last year? Just a few days after

And because this seemed to be highly profitable, soon hundreds of so called pixel ad pages spr

Just right now there is a new buzz going around on the Internet that even seems to top the suc

Keyword sites are popping up all over the internet right now.

Haven't seen them?

Check this out for example: www.getyourword.com

Looks pretty simple, don't you think so?

Now here's the secret behind those word sites (or word cloud sites, key word pages) - actually

And that's what these sites are built for: they will get you highly targeted keyword links to

How do they work?

The keyword sites are a simple website containing a number of key words. Each word can be boug

It's as simple as that

And keyword pages got another huge advantage over the pixel sites: Do you remember the mess of

I bet that these keyword sites will be the next big buzz on the internet advertising scene and
