

Title:

Using search engine gateway smarter to find your information

Word Count:

360

Summary:

Today, I want to share with you how I use search engine gateway to find information. Put it in

Keywords:

search engine, search gateway, search engine gateway

Article Body:

Today, I want to share with you how I use search engine gateway to find information. For those

Put it in simple, by adding a short search name, which represents one website, before the search

Navino has already defined some search names for most popular search engines. These search engines

Sometimes, a few search engines I want to use are not in Navino's public search name database.

One more trick when I use search engine gateway is, I define private search names as a shortcut

I hope this article can help you to use search engine gateway better and smarter. And I also want
