

Title:

Your Words Are Your Own Product?

Word Count:

583

Summary:

If you've never come up with any ebooks or digital products on your own but you've been writing

You won't believe that you already have your own digital product in hand.

You'd probably think that your own product has to be an ebook, a piece of software or some sort of

That is normal.

Though you can't actually hold a digital product, the image of a book that appears on a website

Keywords:

submit articles, find articles, article directory, article search, article marketing, internet

Article Body:

If you've never come up with any ebooks or digital products on your own but you've been writing

You won't believe that you already have your own digital product in hand.

You'd probably think that your own product has to be an ebook, a piece of software or some sort of

That is normal.

Though you can't actually hold a digital product, the image of a book that appears on a website

That's why creating an ebook can sometimes be a logical way to own a digital product.

But, you've been missing the point.

Like I said in the opening paragraph, if you have been writing articles and posting in forums,

Take writing articles for example.

You can write a 500 to 600-word article about a topic and then leave an affiliate link to the

Since there's no article can be written exactly the same by two different authors, unless you

What you need to do next is market your article as if you're marketing an ebook or other digital

How do you market your own articles?

One way to do it is by submitting your articles to hundreds of article directories and thousands

If you want a quick result, and get your article listed in major search engines in as little as

What if you don't write an article, but have been actively posting in forums?

Well, use bits and pieces of the postings and turn them into articles.

For example, post a question like "how do you get top ranking in search engine?"

Then, when you get enough responses, compile the answers and write an article based on the information

Include a short promotion about you in the author byline and Presto! You've got an article. You

Of course, you don't normally create an image of article cover (like ebook normally has ebook

Now, can you easily create a 500-word article?

How fast can you write a 500-word article?

Can you write more than one 500-word article?

Think about it. I've just created a product of my own and you're done reading it in less than

Is this article a great product? You'll be the judge, but what's more important is that I've a
