

Title:

Air Compressors - How To Choose One

Word Count:

412

Summary:

There are three main types of air compressors. Which you need will depend on the air pressure

Reciprocating compressors come in a range from 5 HP to 1000 HP. The smaller compressors are po

Keywords:

compressor, compressors, air compressor, air compressors

Article Body:

There are three main types of air compressors. Which you need will depend on the air pressure

Reciprocating compressors come in a range from 5 HP to 1000 HP. The smaller compressors are po

Larger reciprocating compressors are gradually being replaced by simpler rotary screw compress

If you are looking for a compressor for continuous use a rotary screw compressor may be suitab

For continuous, heavy industrial uses you need a centrifugal compressor. A centrifugal compres

When you buy compressed air for diving the air has been compressed using a three stage, recipr

The compressed air is filtered through silica gel to remove water, then through activated char

Sometimes air from a cheap, low powered compressor will be stored in a bank of large high pres
