

Title:

Can openers ~ a brief history lesson

Word Count:

352

Summary:

Many people tend to assume that cans and can openers were invented around the same time

Keywords:

cans, openers, ringpull

Article Body:

Many people tend to assume that cans and can openers were invented around the same time, as it

The can opener we all know and love today dates back to 1925, although it was only a minor mod

Even though pull-to-open cans were invented 50 years ago, people still open millions of cans e

However, the classic wheel design is not the only kind of can opener around. Another one that
