Types of boat tarps:

Tarps are primarily classified on a basis of their material. Some common types of tarps are:

- Poly tarps: These are the most commonly used tarps, and provide excellent cover from rain. T
- Canvas tarps: These kinds of tarps are hemmed and stitched all round and reinforced. The rei
- Mesh tarps: They are also called Shade Screens. They are not very good for use as boat tarps

Most boat tarps can be purchased without any fittings, so they are usually sold in pre-standar

There are many new tarp designs made everyday, as people have started taking an interest in th

The tarp is used along with rope, which helps owners tie the tarp to their boat without any ga
