Thought of the day: Why is it acceptable to wear the same pair of jeans for days, even weeks,

Still on the topic of jeans remember when all we had to choose from was either a pair of Levi

I remember this quite vividly. There was no such thing as `engineered denim` in the early 90's

Then something revolutionary happened in the mid nineties (that saved my ass, so to speak). Le

Moving into the new millennium, jean manufactures suddenly realised that it was wrong to allow

Today however, while we are finally perfecting pocket grinding, crotch whisker marks, and thig

In saying this, I'm certainly not against engineered denim. It's interesting and it's getting
