

Title:

Beach shorts explained

Word Count:

345

Summary:

Beach shorts are a special kind of shorts that are designed to get wet

Keywords:

beach, boardshorts, fashion

Article Body:

Beach shorts are a special kind of shorts that are designed to get wet. They are not swimming

They are generally made of materials like lycra, flannel or nylon, which are chosen to be quick

Although most people only wear beach shorts when they're going to the beach, it is common for

Beach shorts aren't just for standing around in the sea, though ~ they're also just fine for w

One word, though: Hawaii-style beach shorts aren't fashionable, and hopefully never will be ag
