Keywords:

kayaks, kayaking

Article Body:

A couple of decades ago there were two to three models of Kayaks available. Don't be surprised

The obvious first question is what type of kayaking will you do? Basically there is river, lake

There are three basic types of kayaks as far as structure and materials are concerned.

Rigid kayaks are made of plastic, wood or carbon fiber. These are usually the most affordable

For kayak enthusiasts who appreciate aesthetics and beauty, you might want to look at some wood

A folding kayak is usually made of wood or aluminum. Their prices are usually high, but they t

Inflatable boats provide good portability and storage space. They are generally the least expen

Another choice to ponder is whether to choose a single-passenger or double-passenger kayak. Bo

After deciding on the style of kayak you want to purchase, price becomes a big factor in deter
