Article Body:

Before learning how to play the game, a bowler will need to identify the equipment needed and

The bowling ball selected must be of the proper weight and grip; the player's finger size and

The usual weight of the ball is approximately 14 to 16 lbs. for males and 10 to 14 lbs. for fe

Aside from the ball, players will need a few other things:

- Bowling shoes - these are designed to allow the player to slide on either foot. The left sho
- A bowling bag for the ball;
- A rosin bag, which is used by the players to insure that the hands are kept dry; and
- A bowling towel, to get rid of oil and dirt.

To practice, players must make sure that the proper equipment is pre-ordered or reserved to en
