Article Body:

The sweep and the reverse sweep are two batting shots which are not commonly used, especially

There is a high element of risk with the sweep shot, so good judgement and excellent timing is

The sweep and reverse sweep are both cross batted shots and should ideally be played to slow d

Once you have determined that the ball is there to play the sweep shot to, move your front foot

To play the reverse sweep, get in to the same position as for the orthodox sweep, however this

Common problems:

-Premeditating the shot- deciding to play the shot before the bowler has bowled the ball. Wait

-Playing the sweep too early in the innings before getting your eye in. Wait until you are set

-Trying to hit the ball too hard. Good timing and technique is better and more effective as yo

-Playing the shot to deliveries which are either too full or too short, so good judgement of l

Remember that the sweep and reverse sweep are quite hard shots to master and carry quite a lot
