Article Body:  
Horse info provides some interesting facts about horses in general. Horses being herd animals  
Since ancient times horse has always been a domestic animal. Being of domestic help, the train  
A herd of horses consists of a number of female horses (mares) and immature horses with just a

#### **Horse Gaits**

In general, a horse can walk with four different types of gaits: walk, trot, canter, and gallop.  
A horse walk is very simple. He flags on one of his four legs in the air at any give time. Hor  
A horse trot or jog results when his foreleg and the opposite hind leg simultaneously touch th  
Canter or lope is a three beat gait in which his foreleg and the opposite hind leg simultaneou  
A galloping horse uses two paired legs to propel itself with full speed. Example: the way a ho

#### **Thoroughbred Horses**

The thoroughbred horse breed came into existence in the 18th century in England. It was the ti
