Back in the days when kids made a lot of their toys, some devious little mind came up with a w

But for a simply weapon to give your friends a snapping good time, try this. Gather up a piece

You're going to want to glue the clothespin at the rear of the 1" side, which should be on top

Now drill a hole through the end of the clothespin, with a bit that is slightly larger than th

Cut a notch in the end of your wood, just below the top, so you can hook one end of the rubber

For more zing to your gun, cut a second shorter piece of wood and glue it underneath at a 90-d
