Keywords:

watches, diving, sports, reviews

Article Body:

If you are in the market for a new diving watch, here are some aspects you should consider bef

#### 1. Water resistance.

Obviously, all diving watches are going to be water proof; they wouldn't last for a minute oth

When companies test the water resistance rating of a diving watch, the test is completed in co

To guarantee that your diving watch does not give out at depth, make sure you purchase a watch

#### 2. The watch band.

For a diving watch there are really three types of bands you should weigh: rubber, titanium,

If you are thinking about a rubber band, make sure it is actually rubber and not some cheap im

If you would like a metal band, it should always be titanium or stainless steel since these me

#### 3. Analog or digital

Most dive watches fall into one of two categories (although some combine both): analog or digi

The analog watches are the traditional dial-faced watch. If you are considering this type of w

Digital watches almost always offer a slew of sophisticated functions to help divers keep trac

#### 4. General Ease of Use

Look for attributes that will help make your new dive watch easy to use in actual dive conditi

Lastly, look at the reviews for the diving watch you are looking at. Looking at a watch in the
