

Title:

How to Make a Bow and Arrow

Word Count:

286

Summary:

Instructions on how to make a bow and arrows for the beginner.

Keywords:

make, bow, arrow, arrows

Article Body:

It's easy to make your own archery kit, once you have the right equipment. For this you need:

For the bow, choose a piece of dead wood, preferably bendable and at least an inch in diameter

The smaller branches are for the arrows. Make these as straight as possible, sanding them if n

Next cut a piece of your hemp string about three fourths of the length of the bow. It must be

Now take the cardboard papers and cut them into elongated triangles. The legs (bottom) should
