

Title:

Indoor Trampolines And Mini Trampolines

Word Count:

505

Summary:

Indoor trampolines, also known as mini-trampolines, are small trampoline kits designed for children.

Since many emergency room-treated injuries are related to trampoline jumping, before letting kids jump on a trampoline, parents should consider the safety of the trampoline.

Keywords:

trampoline, trampolines, fitness, health

Article Body:

Indoor trampolines, also known as mini-trampolines, are small trampoline kits designed for children.

Since many emergency room-treated injuries are related to trampoline jumping, before letting kids jump on a trampoline, parents should consider the safety of the trampoline.

Indoor trampolines may also be used as a bouncing device by gymnasts or stuntmen to be catapulted into the air.

Popular Indoor Trampoline Models:

Nursery Trampoline: This indoor trampoline has a grip handle, and is designed to encourage children to jump.

Joey Trampoline: is designed to help kids learn balance and coordination with the assistance of a parent.

Child Sport Fit Trainer: Manufactured by Texas Trampoline, the jumping surface of this indoor trampoline is made of a soft, padded material.

Soft-Bounce Rebounder: A product from Needak, it has a surface diameter of 28.5 inches and a height of 18 inches.

TP Medium Junior Trampoline: Features a detachable handle which can be used when the trampoline is not in use.

Bounce around Inflatable Trampoline: This is an inflatable bouncing trampoline constructed out of a soft, padded material.
