Article Body:

The Kingman Spyder E-99

The Kingman Spyder E-99 is a fast gun, durable and can be upgraded and modified to increase its performance.

The Spyder E-99 has an electronic trigger frame with modes of semi automatic, three round, six round and full auto.

The Spyder E-99 is a fast gun; however its speed can cause you a few problems unless you modify it.

This marker is reasonably accurate; however, you can also do better by upgrading to another brand.

Taking care of your marker is an essential aspect of owning any paintball gun, and this should be a priority.

A Spyder E-99 when used right out of the box will only give you a so-so performance. To get the most out of it, you need to upgrade it.

The Kingman Spyder Fenix

The Kingman Spyder Fenix is a gun that is tops in its own category. It is better than any gun you can buy.

The Spyder Fenix is great to look at, will do the job it is supposed to do, and it will also perform well.

The Spyder Fenix features four different modes of fire; these are the semi, the 3 shot, the 6 shot and the full auto.

The Spyder Fenix is known to almost never chop. It has a great firing rate, has fantastic balance and is very accurate.

The Spyder Fenix is very easy to clean. For upgrades and modifications, the first thing to do is to upgrade the trigger.
