Article Body:

In today's world of electronics, we all travel with numerous devices that require batteries.

- * Keep batteries and equipment with you, or in carry-on baggage - not in your checked bag
- * Buy batteries from reputable sources and only use batteries approved for your device ~ a
- * Look for the mark of an independent testing or standards organization, such as Underwrit
- * Do not carry recalled or damaged batteries on aircraft. Check battery recall information
- * Only charge batteries which you are sure are rechargeable! Non-rechargeable batteries ar
- * Only use a charger compatible with your rechargeable battery ~ don't mix and match!
- * If original packaging is not available for spare batteries, effectively insulate battery
- * Place each battery in its own protective case, plastic bag, or package, or place tape ac
- * Take steps to prevent crushing, puncturing, or putting a high degree of pressure on the
- * If you must carry a battery-powered device in any baggage, package it to prevent inadver

So, be careful when carrying battery-operated devices and follow these simple guidelines to ke
