There is nothing quite like scuba diving. I remember my first scuba dive. I was visiting Tobago
The dive itself was amazing and exhilarating for me even though it was what is called a non-deep
For those who crave more diving adventure such as deep sea diving and wreck diving which would
It's easy to learn to dive. Not as hard as you might think. PADI certification can be obtained
Where you will be diving will make the decision for you as to what type of equipment you are going to use
You'll need a good mask. One that seals against your face well. A pair of booties and fins. You'll also need a BCD
You'll want to do a lot of research on equipment before buying. As with most things technology
