10 Steps to Developing a Quality Lesson Plan

Word Count:

500

Summary:

This guide is not meant to be the one and only way to develop a lesson plan; however, it is good

Keywords:

home school, lesson plans for home school

Article Body:

This guide is not meant to be the one and only way to develop a lesson plan; however, it is good

Below is a list of the steps that are usually involved in developing a quality lesson plan as

1. The first thing that you will have to consider, obviously, is what you want to teach. This

Once you have chosen your topic, you can begin choosing how you want to teach the topic in general

Having your lesson plan properly set up with state standards, helps to prove its worthiness and

If you are able to blend your lesson plan with the local school standards, record links to those

2. Develop clear, specific objectives to be sure that your lesson plan will teach exactly what

As an example, if you wanted to teach your class how to add  $1 + 3$ , the objective may be that ^

Your objectives should also be directly measurable. What this means is that you need to make s

In order for you to be able to make objectives more meaningful, you may want to include both w

The specific objectives would be more like the one listed above, in such a manner, as ^the stu
