What is distance learning?

Distance learning as a term is normally used when talking about teaching-learning where the st

Why use it?

There are many good reasons why a school would choose to use distance learning or e-learning.

1. The school has students from a large geographical area. And to be able to increase this are
2. The school has multiple campus areas, located at large distances. This is one of the newest
3. Fewer teachers. This is possible as a teacher without travelling can teach in several place

Tools used

There are many different levels of technical tools as well as teaching methods applied when us

Everything from email and a simple bbs , to streamed live video and advanced meeting areas whe

Tests and work papers can be mailed or fetched and re saved via filesharing directly from the

And by combining things like high resolution webcams and skype, the cooperation can be taken t

There will be a lot of advancements in the area of distance learning in the future. Who knows,
