Article Body:

Thought today would be just the same as every other morning but when I checked my Inbox I found

Anybody with an email address could become a victim in the ever growing outbreak of Identity theft

I've gotten email that have asked me to update my Ebay account, my Paypal account and my Chase

If you check just your local news you should see many stories regarding the scams that are current

Earthlink has come up with a web browser that will help you identify these phishing sites and

Just keep in mind that there are no shortcuts in life. if you get a questionable email then please
