At a small, college-prep school in New Hampshire, teaching and learning are very different fro

Founded in 1886, the school uses the outdoors to supplement regular classroom work, with the g

Although students receive letter grades, they are expected to develop as a "complete learner"

The six Learning Outcomes are:

&#8226; Knowledge-"Content" mastery is important; it is simply not treated as the proverbial "

&#8226; Critical Thinking-Nearly all classes are discussion-based, where students are challeng

&#8226; Self-Direction-The self-directed learner is the student who pushes personal limits, se

&#8226; Communications-Students learn to organize and express ideas clearly and to communicate

&#8226; Information Processing-Students learn to differentiate and assess the validity of info

&#8226; Collaboration-Students learn to monitor and regulate their behavior in a task-oriented

"Our approach offers opportunities for students to succeed in six different performance areas
