

Title:

Teaching - A Survival Guide for Students and New Teachers (Part 1)

Word Count:

507

Summary:

First in a series of articles designed to make life easier for new teachers and student teachers

Keywords:

teaching, student teacher, student teaching, teaching practice, teaching practise, teacher training

Article Body:

Most teachers make many mistakes in the early years of their careers. The majority of these mistakes are avoidable.

Teaching is an emotionally satisfying career, but an extremely stressful one. By following the advice in this book, you can avoid many of the common pitfalls.

Hopefully, this book can help more teachers to succeed that much sooner and help to reduce the stress of the profession.

You will need your own car. Public transport is not a good way of travelling to school. Unless you live very close to school.

In the short term, you may be able to arrange a lift with a colleague who happens to live near you. But this is not a long-term solution.

You will almost certainly work for a month before you are paid. Most schools have a set date for the start of the school year.

Be sure to inform your employers of any previous employment. Some schools will give you increments based on your experience.

Join a union, or professional association as they are sometimes called in teaching. This gives you a voice and support.
