So when we procrastinate, we take no action and consequently - nothing is born.

Do you want financial freedom?

- Then you need to take action.

Do you want to own your own home or be your own boss?

- Then you need to take action.

Do you want massive success?

- Then TAKE ACTION!

GET STARTED

Guess what? Tomorrow never comes. It never does.

I used to get like a deer in headlights, frozen in my tracks, when it came to reaching for my dreams.

For years.

Many years.

It was terrible.

I bet you know what I'm talking about too. Make a commitment to pick at least one success principle.

Just Do It.

When Laura and I first started Pathways To Power, we had no idea what direction things would go in.

So that's what we did. We just threw up a web page and offered to help people.

Did it look dumb? Yes!

Well guess what? 3 people signed up anyway! I don't even know how they found the web page because

That's a success principle for you.

Did you see the movie "Field of Dreams"? Same idea: If you build it, they will come. So get busy

1) I'm too busy right now and don't have enough time (it's a trap and a part of the illusion.

2) I don't know what to do (we recommend finding a mentor to help you)

3) I don't have a Masters' degree or PHD so who is going to listen to what I have to say? (50%

4) I'm too old. I missed the boat when I had my chance xx years ago and didn't take it. (reply)

I met a fellow over the internet once who was living in Japan. I'd been researching ways to immigrate

It takes money to make money - and I don't have any! (I know a man who, right out of college,

I'm sure there are other reasons to NOT get started building your dreams today. If you have any

That's all for now but please: make a commitment to getting started today.

This is YOUR year if you decide to go for it.

No more excuses.

Take ACTION.

It's what separates the would be's, runner ups and wish I had's from the abundantly successful
