Article Body:

Everyone has seen or heard of someone with a photographic memory. We have also seen or know pe

Studies have shown that 50% of brain power and function is genetic, and 50% is environment der

The brain is very similar to a muscle. We have all heard of stories of the underdog in sports.

Dr's know that the way to avoid mental decline is to constantly expose the brain to new activi

Now, just like the body has many different muscles, the brain has numerous functions and each

We will not go into how to exercise each of the areas of the brain as there are numerous books
