Article Body:

When you meet new people for the first time, do you usually like most of the new people that you

Or do you find that you usually dislike new people, unless they can eventually prove after a while

Perhaps you have never thought about this before. And you may even wonder if it's really important

Your attitude to the new people you encounter will actually have a big impact on the number of

Why? Because the attitude you have when you first meet somebody will affect the way that you

When you have the attitude of liking someone you have just met, they will feel pleased to know

If you like most of the people you encounter, you will have a far larger group of people in your

On the other hand, when you don't like people when you meet them, they will feel uncomfortable

When you don't like the majority of people that you meet, your friendship pool for making friends

If there is one secret to having friends, it's a simple one, and here it is: Like Other People

If you dislike almost everyone you meet, how many friends do you think you will make with this

If you usually operate with a big long mental list of reasons to reject others, you will assume

This negative attitude will make you very suspicious when you encounter others, since you will

Wouldn't it be easier and more effective to give everyone a break?

When you meet other people, give other people a break, and give yourself a break too.

When you meet people for the first time, start out with the assumption that most people you encounter

If this hasn't been your attitude so far, you can work to change it.

How can you change this?

Whenever you meet someone new, actively look for things to like in that person. Look for their

You will find that when your attitude changes, the world will become a friendlier place, because
