How do you know if a person is willing to attain self improvement? This is a question with no  
Many people have goals, dreams or ambitions but do not know how to go about achieving them. Th  
Some people have a vague idea on how to go about self improvement. These are the ones that bel  
They feel that their happiness or lack of happiness is decided by external factors and their t  
Some believe that if only they had more money they could have whatever they want and be on the  
They may have spent little time thinking about what they actually want from life, and do not r  
Other people do not even know what they actually want from their lives and may even have littl  
They may have seemingly secure jobs and be earning enough to live relatively comfortable lives  
Is self improvement important?  
The reality is that throughout our lives we are all constantly growing and developing. Circums  
Up to a certain age, we learn through formal education and we continue to learn through our ex  
Modern life moves at a dramatically faster pace than at anytime in history. For anyone living  
But there is also more competition than ever before, and ever changing technology means that t  
Because the workplace is so competitive, people who are ambitious and hungry for success know  
These are the people that will be most likely to keep their jobs, or progress within their cho  
A commitment to self improvement and personal growth may well be the deciding factor in how an
