Article Body:

Ask any expert and they will tell you that computers should be kept in high-traffic areas of the house.

As technology advances, however, parents can easily give their online youngsters privacy and freedom.

Parents need to be smart when giving teens their own PC. It's important to adopt and enforce a set of rules.

^But before you even do that, as you get ready to give them the 'big gift' this year, make sure you're prepared.

Tools like PC Pandora make it easy to find that happy medium between teens being able to freely use the internet.

Co-founder Manuel Coats explains, ^PC Pandora works like a TiVo for your PC, by recording and analyzing all activity.

The new version 5.0 boasts a revamped user interface, new webcam snapshot capture and Instant Search.

If someone is approaching your kids with ill intentions, you will know. It's really the best of both worlds.

As a special promotion for the holidays, the company is offering the software at a discounted price.

The www.PCpandora.com website has become a place where parents can go to discuss issues, get tips and more.

Online safety is an important topic, now more so than ever ~ and parents are the first and best line of defense.
