What are airsoft guns ?

Airsoft guns are realistic-looking toy guns that fire small plastic BBs to ranges of 25 to 45m

Most airsoft weapons come with hop-up and come in three basic types:

- 1) Springers - manually cock the firing spring before each shot is required.
- 2) Gas - use compressed gas to propel BBs .
- 3) Electric - the most popular and the hottest automatic weapons that use a motor to push back
