Article Body:

Everyone knows that I.D. Badges are significant to the society. It is used to identify each person.

In general, the I.D. badge serves as a function to identify the ID bearer as a person who is significant.

ID Badges benefit the school in many ways.

1) In a learning environment like schools, universities, libraries and others, the ID badge is used for the following purposes:

\* Identification ~ because of the I.D. badge, the school management would be able to determine the identity of each person.

\* Record ~ by setting up a rule that the I.D. badges is a standard operating procedure on registration.

\* Access ~ I.D. badges could be used as admission of events, meal stubs for students and faculty.

\* Security ~ since the faculty and students are required to wear their I.D. badges on gate entrance.

\* Machines ~ if all the I. D. badges have been formatted for school purposes alone, it could be used for library machines.

2) In a working environment, one has to be rest assured that the workplace is a community where the following purposes are served:

\* Identification ~ The company could be able to distinguish the people working in each department.

\* Security ~ Not only do the employees would feel safe, the company itself prevents spies from entering.

\* Integrity ~ with these I.D badges in process, the company is reflecting professionalism through its employees.

Since these two institutions serve as the two important root of a society, it could be proved that I.D. badges are significant.

Plus, I.D. badges could be used more minor purposes.

I.D. badges could be used as any access control cards. As used in hotel key cards, I.D. badges could be used for the following purposes:

The I.D. badge could be used in election procedures wherein the needed information are placed on the badge.

With many events happening in a day, I.D. badges could be used as passes for any kind of gig.

In summary, I.D. badges serve the society in many purposes. It is an information gate-way to many services.
