For example, can you create an addiction in someone using Neuro Linguistic Programming (NLP)?

Yes, you can.

Before you learn the steps to do it and how to protect yourself, let me give you two warnings.

First, don't do this to people unless you are giving them a compulsion for something they want

Second, To do this you have to be very good at NLP, report building and anchoring etc.

Start by eliciting what is called the NLP submodalities of a compulsion a person has. You can

Then begin to describe what you want them to have a compulsion/addiction for in exactly the sa

I'm not going to give you any more detail than that. It's more than enough to experiment with.

Using this pattern a person can create a compulsion for drugs, sex, money, perfection, driving
