While the appearance of the teeth is one of the most important contributors to facial beauty,

What is surprising to most is that no matter what the problem with your smile, there's a way to

- \* Stained, discolored teeth can be whitened
- \* Crooked, overlapped teeth can be straightened
- \* Chipped, broken, worn teeth can be repaired
- \* Unattractive metal fillings can be replaced with natural-looking restorations
- \* Missing teeth can be replaced
- \* Gaps between teeth can be closed
- \* Gummy smiles can be fixed

Smile makeovers have become more common, less invasive, faster and more effective in correcting
