In the business sector, vending machines are bring cost and time benefits. It takes significan

Vending isn't just about food and drink, however. Hygiene companies use a range of vending ma

The big boost in vending machine market growth comes from the availability of different paymen

The key trends for the growth in the vending market are:

- Replacement of traditional canteen facilities
- Increase in 24-hour business operations
- Diversification of payment methods
- Increase in the number of people shopping and other leisure pursuits

This is a great time to get into the vending business. Whether as a full time business, or a p
