Article Body:

Traveling by plane requires great planning. One can minimize problems by planning well in advance.

1. Always book tickets on a reliable airline. Check if they are offering any special fares.
2. Find out details regarding size of baggage and weight allowed. Tag all bags with your name.
3. As a precaution pack documents, passport, medicines, and other immediate essentials in your carry-on.
4. Follow to a ^t~ all security rules. Do not carry electronics, knives, batteries, or other prohibited items.
5. All electronic items like cell phones and laptops must be fully charged and in accordance with airline regulations.
6. Take along a valid photo ID to the airport. Check whether you have your tickets.
7. Make prior booking for parking at the airport this will save you valuable time circling for parking.
8. Always check the flight schedule before you leave the house. Make sure what the check-in time is.

It is against regulations for passengers to carry inflammables, aerosols, or household cleaners.

Before leaving check online whether there are any diversions to be made at the airport or whether the flight is cancelled.
