Article Body:

The name of Greece's capital derives from the name of the Goddess of wisdom and intelligence, Athena.

Two hills lie at the heart of the city, one surmounted by the Acropolis and the monuments of Periclean Athens.

We strongly advise you to spend a day or two in Athens, in order to view its many attractions. Piraeus, Athens' harbour, is one of the largest shipping junctions in the Mediterranean, as it has been since ancient times.

The coast from Piraeus to Kalamaki is lined by high-rise apartment buildings. During the hot summer months, the seafront is a busy promenade.

Kalamaki the port and base:

Steering into the harbour during the day is no problem. At night there are beacons, which have been used since ancient times.

North of Evia, and away from the usual sailing routes, lie the green islands of the Sporades. These islands are a beautiful sight, and a great place to visit.
