Article Body:

Leasing a luxury car imposes lower costs, generally comparable to the interest rate of financing.

When you are thinking about getting a new car, one question always comes up: is it better to buy or lease?

A key issue is affordability. Is your job situation stable? Are you in overall good financial health?

If you want to get your hands on a luxury car, but you can't afford the initial costs associated with buying, leasing might be a better option.

The decision of whether to buy or lease a vehicle also depends on your unique lifestyle. What are your needs?

You should also consider your actual transportation needs. Think about how many miles per year you will drive.
