Drivers: Don't Forget to Check the Antifreeze

Article Body:

One of the easiest and most important tasks to prepare your vehicle for winter driving is to i

The Car Care Council recommends that motorists check their antifreeze every 12 months or 12,000

The most common formulation of antifreeze is green in color and uses ethylene glycol as a base

Over time, these additives wear out, lessening their ability to protect vital engine and coolin

"Inspecting and maintaining your vehicle's cooling system takes just a few minutes of your tim

To check the level of antifreeze, you will need a few basic service tools and an antifreeze ba

Always make sure the engine and coolant system are cool before you begin. Opening a hot radiat

This is also a good time to inspect and replace any bad cooling system hoses. Check for leakin

If you're unsure about any aspect of cooling system service, have your car inspected by a prof
