Get Your ATV in Top Shape for Spring

Article Body:

Spring is just around the corner. You know how it is: One minute you're adding antifreeze, and

After being cooped up all winter, the temptation to hit the road- or go off-road - with the fi

Before you take off on a whim, however, think for a moment about your all-terrain vehicle. How

Polaris, a leading manufacturer of ATVs, offers the following tips to get your vehicle in top

\* Be sure to do a "walk-around" of your unit, checking air filter, coolant level, battery, tire

\* Clean the vehicle and inspect for damage. Be sure fasteners are tight.

\* After any storage period an ATV should have a complete tuneup. Call your local dealer early

\* To prevent damage to springs and blown seals caused by mud, dirt and trail debris, install s

\* Don't forget to check your protective gear - helmet, eye gear, boots, gloves and apparel- to
